

Fundamentals Review

GENERAL BIOLOGY LABORATORY BSC 1005L

Note: The following learning objectives are meant to represent a general overview of the BSC1005L - and by no means are to be used as an all inclusive study guide. Requisites for this course include all assigned readings, handouts, written assignments, movies and lectures as well as any extra projects. Students are responsible for all the assigned materials regardless of whether or not said materials have been specifically covered or addressed during class. As always, students with questions regarding assignments, whether covered in class or not, are welcome to come to my office during office hours, or by appointment, or may e-mail me at: arodrigu@broward.edu their questions to me and I will respond in a timely manner. Upon successful completion of this unit, the students should be able to:

1. What is the proper way to dispose of broken glassware and biohazardous material?
2. What kind of shoes are you allowed to use in the lab?
3. What should you do in case of fire?
4. In case of fire is OK to take the elevator if its working
5. Which apparatus is most appropriate for measuring 25 ml of glucose solution?
6. Oven cleaner is how many times more basic than an egg white?
7. How many millimeters are in 5 cm?
